Who are we?

The Ulster Historical Foundation is an educational non-profit organisation founded in 1956.

Our aim is to encourage an interest in the history of the province of Ulster; to strengthen the links between Ireland and those of Ulster descent; to broaden access to historical documents and records for Irish and Scots-Irish genealogy and to inspire pride in Irish and Ulster heritage and culture.

What else do we do?

Family Research

For over 50 years we have been researching people's family histories. Our small team of researchers, with over 80 years combined experience, can perform a detailed investigation into the genealogy of one or more families.

Publications

We not only sell books but also have a long history of publishing them. In 2012 alone we are publishing **over 14 genealogical and Irish history titles** as part of our growing range of quality books.

Family Records

We have **over 2 million Irish family records** available to search online including Birth, Marriage & Death records, Gravestone Inscriptions, Street Directories, Census Records and more.
